Election of Species

Assistant Commissioner for Patents
Washington D.C. 20231

Dear Sir:

In response to office action mailed September 13, 2006, please note applicant wishes to elect the species shown in Figures 14-19 for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held allowable.

The claims that readily read on the embodiment described by these figures are: 1, 2, 3, 5, 6, 7, 8, 11, 13, 14, 15, and 16

The basic structure of the invention is described within the first embodiment. The rest of the embodiments primarily describe different ways of adjustment and pivot attachment in more detail.

It is the applicant's opinion that the three independent claims 1, 5, and 13 are generic and cover all of the embodiments described in the application. Many of the dependent claims are believed to be generic as well.

Respectfully Submitted,

Kevin Tisue
